OUR AIM

Shop records kept by voice note, for Pakistan's kiryana stores and pharmacies.

THE PROBLEM

Your shop runs on WhatsApp. Your records don’t.

01

Udhaar lives in memory.

Credit sits in someone's head and a torn bahi-khata.

02

Stock runs out at the counter.

Nobody notices the oil is gone until a customer asks.

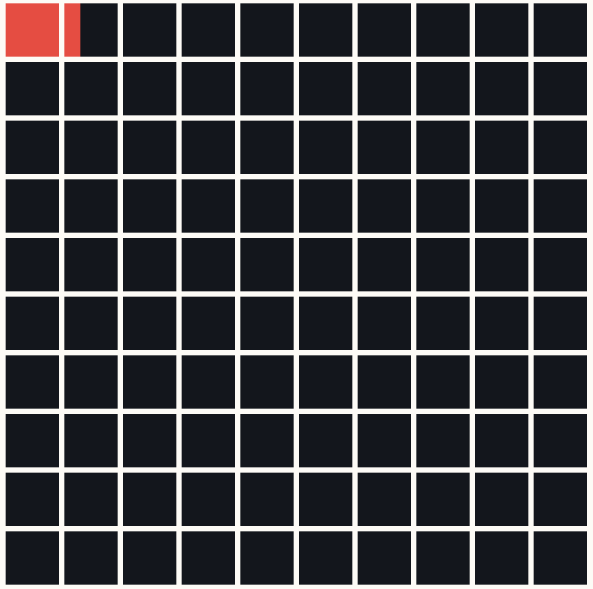

03

Desktop POS doesn’t fit.

English-only screens, a form per sale, a barcode gun.

MARKET ANALYSIS

2.78M shops. Barely any POS.

2,779,899

retail shops in Pakistan

37,122

outlets on FBR's POS system, about 1.3%

1 square = 1% of shops

POS HARDWARE PER SHOP

PKR 60k–120k

Terminal, printer, scanner, cash drawer, card reader.

WITH VERBATASK

No new hardware

Sources: PBS Economic Census, released Aug 2025 · FBR POS list as of 1 Jul 2026, via Business Recorder · EloERP POS pricing guide, 2026

THE SOLUTION

Say the sale.
VerbaTask keeps the books.

01

Udhaar on record.

Every credit sale saved with a name and an amount.

02

Stock you can see.

Counts update with every sale. Alerts before it runs out.

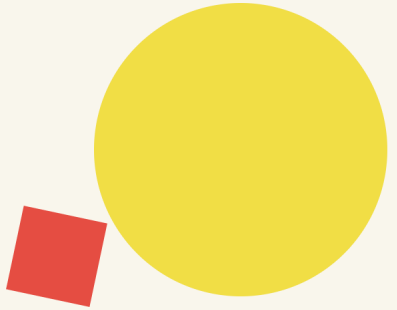

03

No new till.

Works on the phone and WhatsApp the shop already uses.

WHO IT'S FOR

Built for the counter.

01

Kiryana stores

Sales, stock and udhaar by voice.

02

Pharmacies

Expiry reminders before batches become a loss.

03

WhatsApp sellers

Any shop that already takes orders in chat.

REPLACES

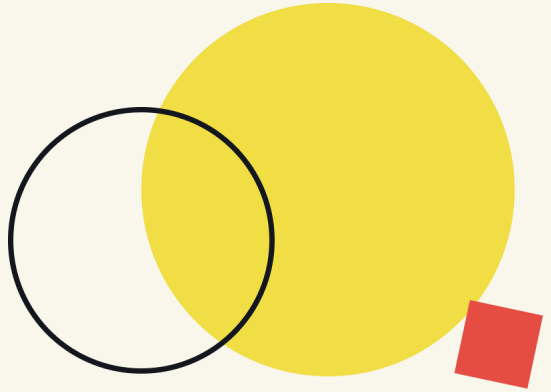

A desktop till, a barcode gun and the bahi-khata.

NEEDS

The phone already in your hand.

HOW IT WORKS

Voice in. Books out.

01

Speak

Urdu, Roman Urdu or English. Voice or text.

02

Transcribe

Matched to your own stock list.

03

Read back

Every entry repeated. Reply GALAT to undo.

04

Sync

Stock drops. Payment tagged: cash, wallet or udhaar.

05

Approve

Big sales wait for your yes. Reject restores stock.

Also running: low-stock alerts · expiry reminders · day report on WhatsApp · optional web dashboard

VerbaTask turns WhatsApp voice notes into sales records, live stock and approvals.

No new hardware. No forms. Urdu, Roman Urdu or English.

Thank you.

Any questions?
